# J. P. SAUER & SOHN SUHL GEWEHR-FABRIK

Zweigniederlassung: BERLIN W Jägerstr. 59/60.

*Mechanische Fabrikation von Jagdgewehren der bewährtesten Constructionen.*

# RELIABILITY SINCE 1751

**SIG SAUER produces pistols and rifles as well as matching accessories for private shooters, armies and special units in Germany and all around the globe. Regardless of the user - the superior quality, the distinctive precision and reliability are valued by every user everywhere.**

The company looks back proudly on its long tradition. When Lorenz Sauer founded his own weapons factory in 1751 in Suhl, Germany, his expertise and passion for products of the highest quality were the foundation of the philosophy of SIG SAUER today. Innovative products of remarkable quality quickly led to the standing SIG SAUER still has.

Exactly 200 years later, J.P. Sauer & Sohn - the company had in the meantime been named after Lorenz Sauer's son, Johann Paul, and grandson - moved to Eckernförde in northern Germany. In the

1970's the company cooperated with the Schweizerische Industriegesellschaft (SIG), which had a significant effect on the company's brand: SIG SAUER was born.

The company grew and so did the HQ, in which today over 150 employees fulfill the Sauer family's legacy. The entire range of handguns and rifles are now being produced there.

By the year 2000 J.P. Sauer and Sohn GmbH and other companies in the weapons industry such as Blaser, Mauser and SAN Swiss Arms from Switzerland became part of what is now L&O

Holding, leaders in the weapons industry. Another sister company is SIG SAUER, Inc. in the USA which today holds a leading position in the US firearms industry. More than 260 years after Lorenz Sauer made the first move by founding his own weapons factory, many things have changed at SIG SAUER, but some remain the same: The unparalleled quality in combination with a highly motivated team is exactly what professional shooters want - quality, precision and reliability.

# OUR CLAIM: PRECISION DOWN TO THE LAST DETAIL

Today more than 150 employees in Eckernförde (GER) fulfill the Sauer's family legacy and give sophisticated shooters what they expect from SIG SAUER:  
Quality, precision and reliability.

## Quality

The highest standards of quality are an inextricable part of the culture of our company. Since quality is crucial for the relationships with our customers, we constantly move the boundaries of what is possible. This is reflected in our certification according to DIN EN ISO 9001:2015.

## Precision

Our precision is the result of perfect coordination between weapon, optics, ammunition and training. That is why it is one of our core features. As an essential part of our quality standards, precision is one of the many assets all our products share in an uncompromising way – be it research, development, the production itself or our customer service.

## Reliability

You need to rely on your gear instinctively in every situation. Hence reliability is the third core element that makes our philosophy complete. Reliability is not only limited to our products, but also counts especially for us as your partner. Being a trustworthy advisor and innovation leader, we offer you solutions tailored to your needs – you can rely on us!

“Being the innovator in our business, we are leading in terms of quality, precision and reliability – always with the focus on our customers.”

**Tim Castagne,**  
CEO SIG SAUER GmbH & Co. KG

# PISTOLS

Choose from a full array of sizes, triggers, calibers, finishes, and features – all with unfailing SIG SAUER reliability and accuracy.

## PURSUIT OF PERFECTION

For everyone that makes no compromises: Engineered to perform anywhere, at any time, and under any circumstance, SIG SAUER pistols boast unique, advanced features that stand out among the rest. Key features include:

Multi-Position-Sight

1913 Picatinny rail with spot for X-Mount

4-Point Safety System

Nitron® Stainless Steel Slide

Superior Ergonomics

Threaded barrels

SRT™ (Short Reset Trigger)

Front Cocking Serrations

## SIZING UP YOUR SITUATION

You want a pistol with frame dimensions directly suited to your needs. Whether you'll be sliding your handgun into a range bag or concealing it in a purse, shooting competitively or defending your home, SIG SAUER® offers a pistol for every shooter and scenario.

### FULL-SIZE

When shootability and sighted accuracy are a must. Generous dimensions and even weight distribution help to deliver a more accurate sight picture and reduced felt recoil.

Barrel > 4" Frame > 19 x 14 cm

### CARRY

Optimized shootability. A full-size grip allows the shooter more control while reduced slide length allows for lighter carry.

Barrel ~ 3.9" Frame 17.8 x 14 cm

### COMPACT

The reduced slide length and grip height enable easy handling and carry with ergonomics designed to promote point-and-shoot accuracy.

Barrel < 4" Frame ~ 17.8 x 12.7 cm

### SUBCOMPACT/MICROCOMPACT

SIG SAUER's subcompact handguns feature even shorter slide length and grip height.

Barrel ~ 3.5" / 3" Frame < 17.8 x 12.7 cm

## TRIGGER TIME

Any expert will tell you, it's the trigger that ultimately puts rounds on target. Weigh the pros and cons of each trigger carefully to select the one you can fire most accurately and carry most confidently.

### STRIKER-FIRED TRIGGER

#### STR | Short Tactile Reset

Once fired the pistol resets quickly with a tactile feel, offering less time between shots.

### HAMMER-FIRED TRIGGERS

#### DA/SA | Double-Action/Single-Action

The first trigger pull performs the double-action of cocking the hammer and then releasing the sear. This is followed by lighter, single action trigger pulls on all subsequent shots. The heavier first trigger pull acts to reduce inadvertent discharges.

**Decocking Lever**  
**Short Reset available**

#### SAO | Single-Action-Only

The trigger performs the single-action of releasing the hammer with a consistent trigger pull that is generally regarded as the shortest, lightest, and smoothest available. The slide can still be actuated with the safety engaged (a SIG exclusive). All models feature a manual thumb safety.

**Manual Thumb Safety**

#### DAO | Double-Action-Only

Every trigger pull performs two actions: first, cocking the hammer, and second, releasing the sear. The pistol remains decocked after each shot and does not require an external safety.

#### FAT | Fully Adjustable Trigger

The fully adjustable trigger enables a simple adjustment of the weight of the trigger, triggerstop and the position of the trigger. A trigger that can be adjusted as you need it.

**Weight: 1000-1600 grams**  
**Distance: infinitely variable on 10mm and triggerstop**

## THE CALIBER DEBATE

Popular opinions vary widely. Only you can select the best caliber for you. In addition to the right combination of bullet weight and velocity, think about your desired magazine capacity, plus ammunition cost and availability.

### 10MM

Higher velocity, greater reach and more muzzle energy than .45ACP

### .45ACP

Known for a combination of power and controlled penetration, due to a large diameter bullet and moderate velocities.

### .40S&W

Designed to match the performance of the FBI's reduced-velocity 10 mm in a smaller cartridge size while offering an energy advantage over the 9x19 mm.

### 9x19

Regarded as the world's most popular and widely used handgun cartridge. It combines a flat trajectory with relatively low felt recoil.

### .22LR

Lightest and most affordable rounds in handguns, the .22LR is ideal for target shooting and training.

# SIG SAUER X-SERIES

The SIG SAUER X-Series embodies the principle of modularity like no other Sports Pistol on the market.

The X-Series offers endless options for shooters to tailor each pistol to their individual needs. Conversion Kits in various calibers open the doors to different disciplines. Fully adjustable Match Triggers are individually tunable in length of pull and weight between 10-16N. Numerous grip plates in different sizes and materials offer all opportunities to design each pistol to the shooter's desires and needs. Quality and modularity **Made in Germany.**

## MODULARITY, QUALITY, PRECISION AND RELIABILITY

### **X-WEIGHT BARREL WEIGHT 5"/6"**

Barrel weights for X-Five and X-Six with rail.  
Weight 160/275g.

### **X-MOUNT-BRIDGE-KIT 2**

Contains X-Mount base plate, side plates, screws, 3 different interaces (for SIG SAUER and other brands) and storage bag.

### **SKELETONIZED TRIGGER**

Weight reduction und design upgrade for adjustable SAO trigger systems.  
More control and optimized geometry.

### **LOW MOUNTED ROMEO RED DOT SIGHT**

Optional.

### **REAR SIGHT EXCHANGE KIT**

For P226 X-Series and P220 X-Six. Contains 2,75 mm, 3,0 mm and 3,5 mm rear sights.

- › Precise and adjustable diopter sight
- › adjustable cheekpiece
- › .22lfb change kit and left hand version available

TR 200 **RECRUIT**

.22LFB  
Barrel length 23"

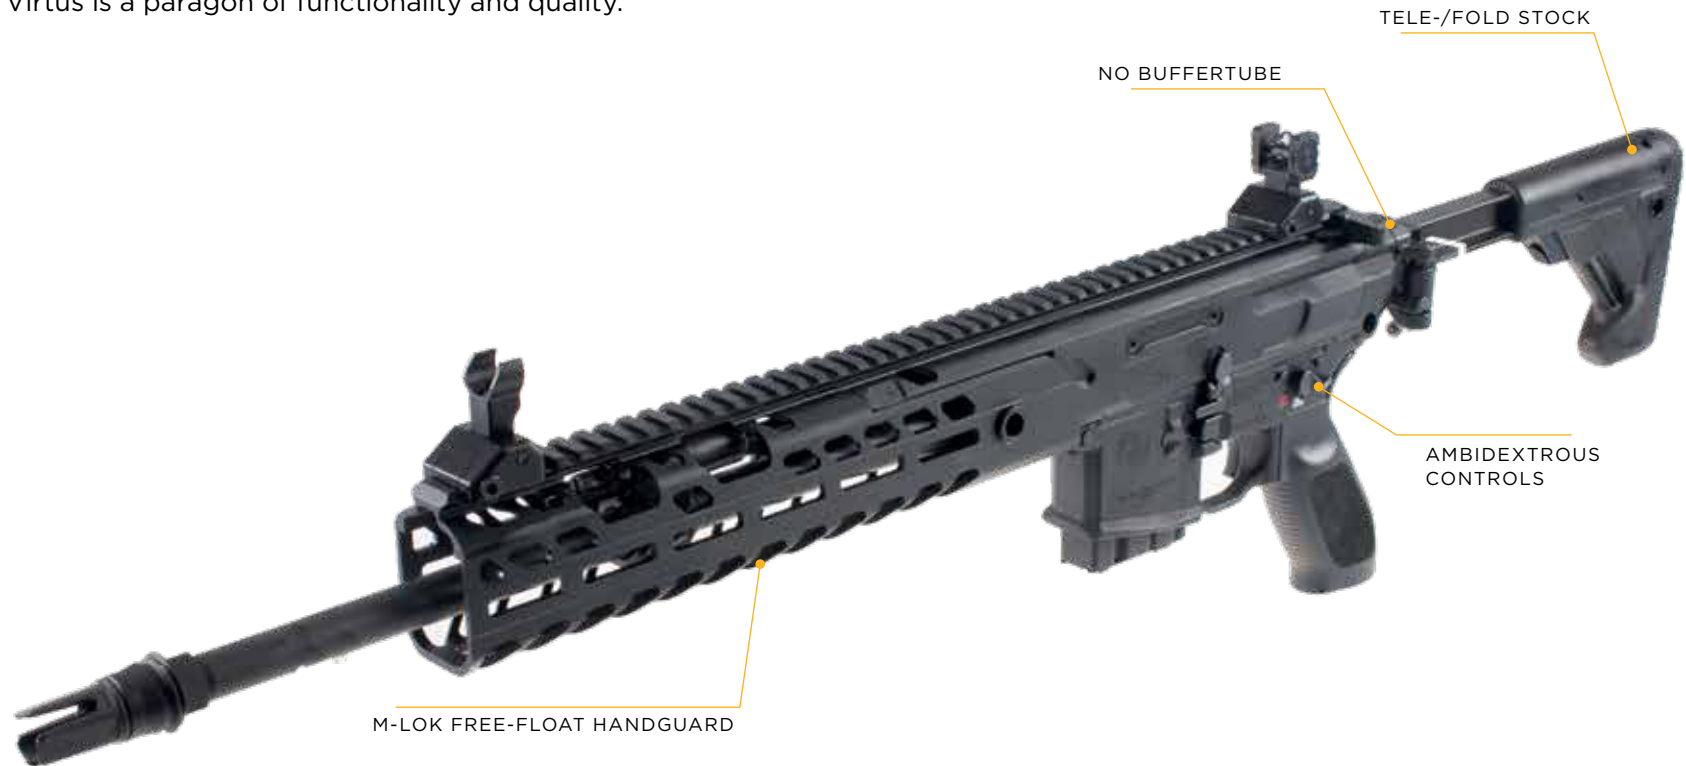

- › Based on TR200 Match and Junior
- › Especially compact stock made of beech wood
- › Extra light floated 580 mm barrel
- › Available in .22lfb
- › Adjustable cheek rest, no tools needed

ALL SPECIFICATIONS ARE SUBJECT TO CHANGE ○ DENOTES MAGAZINE CAPACITY

# SIG MCX<sup>®</sup> VIRTUS

The modular MCX Virtus: Built from the outset for sports shooting and hunting alike. Contains a reliable indirect impingement system. The new SIG SAUER MCX Virtus is a paragon of functionality and quality.

## SIG MCX VIRTUS PATROL 16.6"

.223 REM

- › Free-floating barrel
- › Adjustable 2-position gas valve
- › Ambidextrous controls

OPERATING SYSTEM		BARREL LENGTH	CALIBER	.223 <sub>REM</sub>
INDIRECT IMPINGEMENT	GAS-VALVE 2 POSITION		MAGAZINE CAPACITY	10
		11.5" 16.6"		

SIG MCX® **VIRTUS 11.5"**

.223REM  
11.5" barrel

- › Cold hammer-forged barrel/11.5"
- › Telescoping stock

# MCX VIRTUS

## A weapon system like no other

To enhance accuracy, the MCX VIRTUS features the new SIG MATCHLITE™ Duo trigger for a crisp, clean feel. Free-floating M-LOK® handguards are available in four lengths. Ambidextrous, AR-style controls and a folding and collapsing stock enable the MCX VIRTUS Patrol to be tailored to any shooter. Built with the highest-quality components, the MCX VIRTUS is the apex predator of the carbine world.

SIG MATCHLITE Duo Trigger

Folding and Collapsing Five-Position Stock

User-Changeable Cold Hammer-Forged Barrels

Aluminum M-LOK Handguard with QD Sling Cups

COLLAPSIBLE STOCK

MINIMALIST FOLDING STOCK

DMR SD HANDGUARD  
Extra long handguard for use of silencers

CARBINE SD HANDGUARD  
Extra short handguard for use of silencers

ALL SPECIFICATIONS ARE SUBJECT TO CHANGE ○ DENOTES MAGAZINE CAPACITY

# SIG 516<sup>®</sup>

An enhanced AR platform with a clean-running, more reliable operating system.

SIG 516 **CQB**

.223 REM  
10" barrel

## SIG 516

## SILENCERS

### SILENCERS MONOLITH MCX

- › optimized for MCX models (also with long handguards)
- › easy maintenance and ultra solid
- › 3D printed in high-quality steel
- › Made by SIG SAUER Germany
- › Total weight: 430g

### SILENCERS 200MONOLITH

- › optimized for rifles of the SIG SAUER 200Series
- › easy maintenance and ultra solid
- › 3D printed in high-quality steel
- › Made by SIG SAUER Germany

ALL SPECIFICATIONS ARE SUBJECT TO CHANGE

## CONVERSION KITS

### TR 200 RECRUIT RH

.22LR, including barrel 580 mm, magazine and magazine adapter, right hand

### TR 200 RH

Caliber .22LR, including barrel 710 mm, bolt, magazine and magazine adapter, right hand

### TR 200 RECRUIT LH

.22LR, including barrel 580 mm, bolt, magazine and magazine adapter, left hand

### TR 200 LH

Caliber .22LR, including barrel 710 mm, bolt, magazine and magazine adapter, left hand

### 200PHOENIX

Caliber .22LR, including barrel 710 mm, bolt, magazine and magazine adapter, right hand

## DOUBLE RIFLE BAG

The most comfortable solution to transport your rifle and gear safely and easily.

Double rifle bag for all rifles  
Packed backpack straps

## RIFLE SLINGS

### ELASTIC SLING

With carbine swivel black for AR 15

### ELASTIC SLING

With carbine swivels FDE for AR 15

### ADJUSTABLE SLING

With 2 carbine swivels for SIG 516

## OPTICS AND MOUNTINGS

### SCOPE MOUNT FOR SCOPE

Scope Mount for scopes with 1" tube diameter for SSG and TR rifles

### SCOPE MOUNT FOR SCOPE

Scope Mount for scopes with 30 mm tube diameter for SSG and TR rifles

### SCOPE MOUNT FOR SCOPE

Scope Mount for scopes with 34 mm tube diameter for SSG and TR rifles

### DIOPTER

Diopter sight for TR 200 right-handed

### DIOPTER

Diopter sight for TR 200 left-handed

### DISTANCE PIECES FOR RED DOT SIGHTS

For scopes with 34 mm maintube for SSG and TR

## RIFLE STOCKS

### STOCK FOR TR 200

Right-handed laminated beech wood

### JUNIOR STOCK FOR TR 200

Right-handed laminated beech wood

### RECRUIT STOCK FOR TR 200

Right-handed laminated beech wood

### STOCK FOR TR 200

Left-handed laminated beech wood

### JUNIOR STOCK FOR TR 200

Left-handed laminated beech wood

### RECRUIT STOCK FOR TR 200

Left-handed laminated beech wood

### STOCK 200PHOENIX

Right-handed Fully adjustable Aluminum Chassic, foldable, fits on TR200 and SSG3000

### STOCK 200MAX

Right-handed Spider Tec Coated, adjustable cheekpiece, fits on TR200 and SSG3000

## ACCESSORIES

### 200PHOENIX/MAX

Magazines 3 rounds and 5 rounds

Picatinny Rail for 11 mm Prism 0 MOA

### TR 200

Magazine TR 200 Caliber .308 WIN 6,5 x 55 mm 5 rounds

Magazine TR 200 Caliber .221fB 5 rounds

Magazine TR 200 5 rounds

Mirage band for TR 200 740 mm

Mirage band for TR 200 700 mm

Versa Pod bipod incl. hand-stop
